# INTRODUCTION

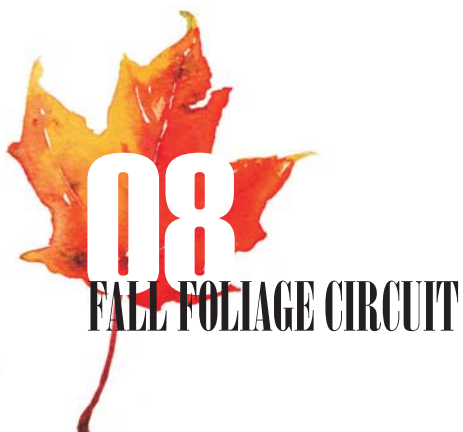

Thank you for joining us today. Some basic guidelines for the drive today:

The drive is designed to allow drivers to set their own pace for completing the drive. We have chosen checkpoints along the way to ensure the group can stay together and take on additional cars for those traveling from different points around the region.

We only ask that drivers wait at the checkpoints until all other drivers have arrived. If the group gets ahead or you must stop for some reason then do not worry, you can simply rejoin the group at the next stop. We will take attendance at each stop. **It is important that drivers notify others if they intend to drop off the drive.**

Lead car is not mandated, however if you are running in front of the group you are expected to know the route and follow it.

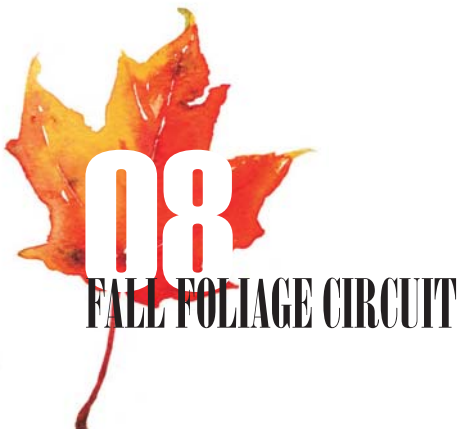

Most importantly have fun and be safe, we hope this is the start of something special.

# CHECKPOINTS

Times listed are guidelines for arrivals. Group will depart within 15 minutes of arrival time except for lunch stop and Wheels and Wings Car Show. If you are joining the group at a later stop please arrive early and check-in.
